"CRUSH THOSE SEDITIONISTS!" BUT, WHO ARE THEY?

KNOW YOUR TARGET! We police officers and soldiers are being given increased in-service training, and tactical "terrorist"/"seditionist" warfare training, from our government "leaders", and their leftist propaganda instructors in the **private sector**, to psychologically prepare us to crush all those troublesome anti-World Government and pro-Constitution "seditionists". We therefore must define our "targets" well, and this article should help.

Upon evaluation we find that those crazy American "seditionists/terrorists" believe that our nation is coming under a socialist totalitarian system. There are a number of ways that free nations have been able to tell when they were coming under totalitarian despotism. Thomas Payne pointed to one of these ways in his statement, "**When the government fears the people there is Freedom, when the people fear the government there is tyranny**". And James Madison another when he said, "**A government that does not trust its law-abiding citizens to keep and bear arms is itself unworthy of trust**". But perhaps one of the best sure-fire ways to size up the current political "lay of the land" would be to note very carefully just **who it is** that the government/media conglomerate is listing as the "seditionists" of the present day. If they are fingering good, moral, honorable and patriotic citizens, then the people should know that they are coming under tyranny. This was one of the best tests in our nation's early history and it is one of the best tests **now** to discern what condition our Republic is in.

**IS OFFICER JACK MCLAMB A TRAITOR
TO THE CAUSE OF WORLD GOVERNMENT?**

Sedition: "...tumultuous (noisy, riotous) assembly in opposition to lawful authority; the stirring up of such opposition." - 1943 Webster's Dictionary

You are right if you noticed that these definitions could fit most **any** persons or groups that have stood up,

spoken out, or taken action against any policy or activity of governmental authority, with which there was disagreement. Interestingly however, the term "**seditionist**" is never used by our government on true radical leftist, communist style individuals or groups that are secret political bedfellows, sponsored by those who control our government from behind the scenes. Believe it not? Just remember the statement of U.S. Supreme Court Justice Felix Frankfurter to the effect that, "**The real rulers in Washington are invisible and exercise power from behind the scenes**". F.D. Roosevelt, Winston Churchill, Barry Goldwater, and others have said basically the same thing. (See our police/military manual, OPERATION VAMPIRE KILLER 2000.)

Notice, if you will, that the American Marxist war-resister seditionists - those demonstrating against our soldiers in Vietnam, or the American Marxists opposing any U.S. assistance to nationalistic, anti-communist causes around the world, such as that of the anti-Communist Cubans or the Contra freedom fighters of Central America - were never labeled such. Notice, too, how today's U.S., **tax-funded**, anti-American and pro-Marxist U.S. seditionist movements such as El Plan De Aztlan, La-Raza, our government school MEChA groups or others of the 300-plus similarly active Communist or Communist front/sympathizer groups, receive NO HEAT at all from our government. On the contrary, they receive government moral support **and** our tax dollars, as they work the globalist plan to bring our Republic to its knees.

In a nutshell, what is certain and a matter of record, looking back over the past 50 years, is that ANY GROUP which has stood **against** our CONSTITUTIONAL REPUBLIC or **for** the destruction of our FREE ENTERPRISE system, or **for** the removal of our property rights and the enslavement of our people, is never called "seditionist" by our government. This term is reserved solely for pro-God, pro-sovereignty, and pro-America individuals or groups. Simple, isn't it? To find "our target", we just look for those who love the God of the Bible, who love America and who stand in defense of America first - **these are the targets that we sworn officers will soon be ordered to destroy.**

For those police and military colleagues who doubt what is said here, think about the things that are happening in our professional lives today: Can we not see that every day now our military organizations, federal, state and local police agencies, the media propagandist (affectionately called "prostitutes" by one of their own peers, New York Times Chief of Staff, John Swinton in 1953), and our socialist government's in-service training specialists (socialist private sector provocateurs and propagandists) **are defining FOR us our targets?** Yes, the **target** has been identified for us

ENFORCERS as being any minority group of independent Americans (of any and all races and religions) possessing these "wild" thoughts and ideas about freedom, property ownership, God & Country, America First, etc. These, we police and soldiers are taught to look upon as "despicable anti-government seditionists". Various other identifying terminology is taught to us as well, in the course of the ongoing in-service "training" provided for us by government-sponsored, private-sector, leftist, hate-promoting, propagandists. Some of the descriptive terms used, and given a negative connotation, are: "right wing", "anti-government", "extremists", "anti-Semitic", "racist", "white separatists", "white supremacists", "freemen", "constitutionalists", "radical", "violence-prone", "militia-types", "anarchists", "homophobic", "Fundamentalist Christians", "tax protestors", etc.. And notice how all these buzz words are picked up by the government-controlled media and schools, and used to turn all uninformed citizens against these "seditious" individuals and groups that are supposedly trying to disrupt our "utopian", "progressive" (i.e., socialist) new world order.

"SEDITIONISTS" OF THE PAST

To better recognize and understand our targets of today, let's take a look at some statements from a few "seditionists" of our nation's past:

"If there be a principle that ought not to be questioned within the United States, it is that every man has a right to abolish an old government and establish a new one. This principle is not only recorded in every public archive, written in every American heart, and sealed with the blood of a host of American martyrs, but is the only lawful tenure by which the united States hold their existence as a nation." "A government that does not trust its law-abiding citizens to keep and bear arms is itself unworthy of trust." - "seditionist" James Madison, 1751-1836

"The tree of liberty must be refreshed from time to time with the blood of patriots and tyrants. It is its natural manure." - "seditionist" Thomas Jefferson to William Smith, 11/13/1787

"Find out just what the people will submit to and you have found out the exact amount of injustice and wrong which will be imposed upon them; and these will continue until they are resisted with either words or blows, or with both. The limits of tyrants are prescribed by the endurance of those

whom they oppress." - "seditionist" Frederick Douglas, 1857

"No man shall be de-barred the use of arms. The strongest reason for the people to retain their right to keep and bear arms is as a last resort to protect themselves against tyranny in government." - "seditionist" Thomas Jefferson

"If the representatives of the People betray their constituents, there is then no recourse left but in the exertion of that original right of self-defense." - "seditionist" Alexander Hamilton

And here is "an evil seditionist" from our time, discussing a well known "utopian peace enforcement system" being erected today in America, one very similar to that described in the writer's book, GULAG ARCHIPELAGO:

"How we burned in the prison camps later thinking: What would things have been like if every (soviet) police operative, when he went out at night to make an arrest, had been uncertain whether he would return alive? "...if during periods of mass arrests people had not simply sat there in their lairs (apartments), paling with terror at every bang of the downstairs door and at every step on the staircase, but had understood they had nothing to lose and had boldly set up in the downstairs hall an ambush of half a dozen people with axes, hammers, pokers, or whatever else was at hand? ...the organs (police) would very quickly have suffered a shortage of officers...and, notwithstanding all of Stalin's thirst, the cursed (Communist government) machine would have ground to a halt." - "seditionist" Alexander Solzhenitsyn, Nobel Prize winner, who spent 11 years in communist concentration camps.

As "peace enforcers" of today we military and police officers cry, "HOW OUTRAGEOUS! Surely this man and all before him should have been put to death for even **thinking**, much less writing, such seditious, anti-government thoughts." But might we not suppose that the Jews probably had similar, "seditious" thoughts as they stood and awaited their fate in those "lawful", expedient and "politically correct" lines?? "New age" cops and soldiers today ask: "Is not anyone who would have such "horrendously anti-government thoughts" - and surely anyone who might one day **ACT UPON** such thoughts - our government's enemy, and therefore our avowed **target for destruction**? After all, are we not blessed to be the ones our "omnipotent (government) deities" depend on to protect them from

such protagonists so that they can complete their program for the "SAVING OF THE WORLD"?"

No question about it: If Madison, Jefferson, or any others of our "anti-government" founding fathers were alive in America today, we brother and sister officers and soldiers would be assigned to see to it that they were surveilled, persecuted, maligned, arrested, imprisoned and maybe killed by those presently in power. The Disciples of Christ Jesus were some of the most flagrant "seditionists" of their day. They and others like them, such as that impossible, hard-headed Moses before them started all this "anti-government" stuff in the first place. (Or did they?) Anyway, 'serves them right that they were arrested, tortured and killed for speaking against the **legal authorities** of the time, making "seditious", "anti-government" remarks like, "We should obey God rather than men." (Acts 5:29)

Whereas the Christian ministers of revolutionary times actually **LED the war** against Britain (the then "lawful" government), today America's "Christian" ministers preach that it is not biblical to stand against the lawful government; that we should obey even evil governments **because**, they say, "All government is of God." This attitude is of great assistance to us New Age "peace" enforcement troops. For example then, a Christian of today should know that it's "against the 'law'" to hide a family of Jews in his attic. So, if you and I as the **legal government representatives** were to come to the door and inquire of such, this "good Christian" would tell us "peace enforcers" the truth and turn the fugitives in, right?! Therefore, with the Christian ministers assisting government control of the masses, it will be even easier and better accepted for us **ENFORCERS** to crush all "anti-government seditionists" when given the command. **Think about it: Would our government leaders tell us to do anything wrong?**

Perhaps we should be thankful that these kinds of intolerant, lawless "rabble", such as Jesus' disciples and the Founding Fathers, are not around today; yet we'd better not relax, for we Enforcers are being instructed that there are signs - signs that some men and women are rising up today as in the past, against "lawful" governments all around the world, aspiring to please the Author of Liberty Himself, rather than the "thoughtful and kind" government leaders you and I serve and protect. Yes, there is a worrisome, dangerous, rag-tag movement growing, made up of allegedly God-loving, law-abiding, non-violent and patriotic Americans of all races and creeds, which is truly upsetting the plans of our government leaders who have succeeded to a great extent in socializing and communizing America. But, who are they?

WHO ARE AMERICA'S TOP SEDITIONISTS TODAY?

by Dennis Michael

Within these pages, each issue, we like to introduce our "Peace Enforcers" in uniform to some of these "evil" American "seditionists": men and women who are truly taking the hard road, by trying to obey their God rather than government, at a time when it would be so much easier to just sit down, make quiet, and go along "**just following orders**" from whoever holds the power at the time, like so many of us do. And so, presented here is the story of one of these notorious "seditionists" of today, for your review and evaluation.

SEDITIONIST # 1

I have known this subject for almost a decade. According to the federal government, as of September 1996, he is under criminal investigation for "conspiracy". Conspiracy for what? They don't exactly know, but there has to be something and they'll find it. All we do know is that because of this officer's "seditionist" constitutional educational work with fellow police and soldiers, he must be taken down.

SUSPECT: GERALD JACKSON MCLAMB, aka Jack McLamb (See picture on front page.)

1976 - Military vet turns police officer.

1976-1979 Highest decorated police officer in Phoenix Police history.

1980 - Founder of THE AMERICAN CITIZENS & LAWMEN ASSOCIATION.

1981 - The founding publisher of the international police/military freedom publication, AID & ABET POLICE/MILITARY NEWSLETTER, sub-titled Constitutional Issues for Lawmen.

1986 - Injured in the line of duty and medically retired.

1992 - Founder of the international **pro-active**, pro-God, pro-nationalism police/military organization, POLICE AGAINST THE NEW WORLD ORDER.

Today, this military veteran and veteran police officer, Jack McLamb, is one of the most hated men on earth by those in each of our governments who are covertly working day and night to ensnare all "human resources" (people) on earth into their New World Order.

Suspect McLamb is a decorated Vietnam War era veteran, and the most highly decorated police officer in Phoenix, Arizona history. He is a true pro-God, pro-

America, anti-globalism Republican, who came close to winning the political primary race for Sheriff of Maricopa County, Arizona in 1982. A few of his awards are the coveted Phoenix **Police Officer of the Year Award** twice and runner-up another year, along with numerous other commendations and awards, all within his first few years of service in the 7th largest city in the U.S., and within a department of over 2000 sworn officers. Additionally, as a result of his city-wide police program for children's safety (later adopted by the Sears Roebuck Foundation as the nationally acclaimed "Officer Friendly Program"), many in law enforcement and government agree that **at one time** Officer McLamb had a most promising future in government. That was until, in 1978, he **DISCOVERED HIS OATH AND WHAT IT ACTUALLY SAID**. He learned he was a violator of the oath he had taken both as a soldier and as a police officer. He learned that as a matter of routine policy and procedure, he was unwittingly violating people's rights and that he had faithfully upheld what is known in government and in law enforcement as the **CODE OF SILENCE**, thereby betraying his sworn oath to defend the U.S. Constitution and the People's rights and liberties.

MCLAMB: "TYRANNY CANNOT SUCCEED WITHOUT HELP OF POLICE AND SOLDIERS!"

Having taken his oath seriously both times that it was administered to him, Officer McLamb, at the cost of his career, immediately started on a course of study that would convict his heart and cause him to return to upholding that oath, no longer to be used to violate his own moral convictions, the Constitution, or the rights of the American People. But in the months that followed, while continuing to serve and protect his fellow Arizonans to the best of his ability (and winning more awards along the way), his most unusual and very unpopular commitment **to the People** rather than to "the State" meant he was destined to become the most governmentally scorned, surveilled, investigated, persecuted, maligned and, yes, the most **fired** police officer in Phoenix, Arizona history. Twice he was fired for his dauntless efforts (on behalf of his **true** superiors, the PEOPLE) to educate and rally his fellow lawmen and soldiers, to stand against immoral, despotic and criminal activities within local, state and federal government agencies.

Following both of his firings, the City of Phoenix Civil Service Board reviewed his case, admonished Phoenix police Chief Ruben Ortega, and the department for their "vendetta against Officer McLamb for his 1st. Amendment exercise to speak and to write his fellow police officers and soldiers about moral and constitutional issues." It then returned him to duty with full back pay. His career potential, however, was at an end.

For the success of his educational work, and for his dedication to God, and for upholding his oath in service and protection of the **sovereign people** of Arizona, Officer McLamb had now merited the government's label, "TRAITOR WITHIN". The National Sheriffs Association ran an article stating that his police publication, "AID & ABET POLICE NEWSLETTER, Constitutional Issues for Lawmen", was a seditious publication and inferred that police officers should not read it. This sworn officers' publication, addressing **the highest of morals, of honor, of great patriotic sacrifice in service to the PEOPLE and the REPUBLIC**, has been so successful in awakening Officer McLamb's fellow cops and soldiers to their duty to serve and protect the people of their nation, that it is listed by America's socialist governmental agencies as "**seditious**" and "**anti-government**". In addition, major U.S. socialist media outlets, and hundreds of leftist, pro-World Government hate groups are joining with government globalists attempting to stop Officer McLamb and the literally hundreds of thousands of people around the world today who are working with him to awaken their nations' natural patriotic police and soldier **protectors** to the treasonous activities and plans of the globalist, despotic "superiors" within their respective governments.

As his pro-freedom, constitutional education work began to manifest itself within the proud and honorable hearts, minds and souls of thousands of his patriotic fellow lawmen and soldiers around the nation, McLamb was placed under 24-hour surveillance by his department, actually being secretly assigned a cold-hearted police sergeant named Kelderhouse, to surreptitiously follow him night and day, on duty and off duty, in the city and out of the city, to try to catch Officer McLamb doing **anything at all wrong**, so that there might be "cause" to fire him again. Nine months and hundreds of thousands of tax dollars later, having failed to produce a criminal act, the department called off their "hit man", but never their vendetta.

Then as his work to inform his colleagues in uniform at the federal, state and local levels succeeded, and more of them joined in to "JUST SAY 'NO' TO IMMORALITY, CORRUPTION AND LAWLESSNESS" under the facade of "just doing my job", "for the good of the country", and "just following orders", Officer McLamb was placed under criminal investigation twice **by the federal government**. To stop him, it seemed that "anything" - **or nothing!** - would suffice to incarcerate McLamb and thereby put an end to his patriotic endeavors of awakening the government's much needed, unwitting Enforcers. Both times, however, not finding any reason to put him on trial, the federal government dropped the investigation. As further punishment for his efforts to protect the people from a

government **out-of-control**, the IRS was sent in to impose a tax bill for \$50,000, challenging McLamb to prove he didn't owe it. This occurred just several months after McLamb returned from Arkansas, having led a team of 11 federal, state, and local officers from 9 states to re-investigate a double homicide committed by federal agents there, together with a subsequent cover-up. One of the two victims was fellow lawman, Gene Matthews, Sheriff of Lawrence County.

The federal judge gave the IRS one and a half years to try to "legally" confiscate a piece of property from out of a trust wherein Officer McLamb had placed it 10 years before. The IRS failed. Meanwhile, after 5 trips to Arkansas and the exhumation and second autopsy on the body of the other victim, the unofficial police investigation team, led by top-notch investigator, Officer Rick Dalton, reports now having all the evidence needed to prove that both victims were killed by government officials. One, (possibly both) was **executed** by federal agents, and a massive cover-up, involving federal, state (Mr. Clinton's administration), and local officials, was set in place. The entire home (crime scene) was intentionally arsoned by federal agents, using the fire as the tool to cover-up the capital crimes and destroy the executed person's body, together with the crime scene.

As often happens with such government-sponsored crimes, Officer McLamb's team of police investigators, representing a collective 120 years of police experience, has so far been unable to get any official agency - federal, state or local, including congress - to look at the **mounds** of hard evidence which the officers have gathered proving these capital crimes. The unofficial police investigative team has grown now to over 40 officers, as these dedicated protectors of the people continue to pursue justice in this case.

Officer McLamb lost his marriage, in part due to the ever-present government pressure and persecution, and to his obsession with bringing criminals in government to answer for their crimes, and hopefully, ultimately, wresting the nation from the establishment international organized crime families who control both sides of the U.S. two-party political syndicate. When asked about being called a "seditionist" for doing nothing more than upholding his oath and preaching God and Country, Officer McLamb replied "**Remember when the PATRIOTS were in office and the CRIMINALS were in jail? With God's blessing, we will see that again in America.**"

Despite all the persecution, in 1984 Officer McLamb won the Officer of the Month award and the same year came in second for the Officer of the Year award. In 1986 he sustained serious injuries in the line of duty while halting the in-progress criminal activities of

a known illegal alien drug smuggler, and was thereupon forced to take a medical retirement.

Ever since that time, McLamb has been praising God daily for the steady, growing support offered by all the wonderful Freedom-loving activists helping to bring continuing success to his efforts to rally his colleagues in uniform all over America. In the last several years, many soldiers and police officers from other nations of the world, realizing that they, too, have been unwitting accomplices to the same internationalist criminal syndicate in control of their own governments, are requesting that Officer McLamb's group, POLICE AGAINST THE NEW WORLD ORDER, assist them also in helping their countrymen regain control of their own respective Lands.

In December of 1993, while speaking at a well-attended gun show in Phoenix, Arizona, concerning the people's **unalienable right to keep and bear arms, and about how many American police support the 2nd. Amendment**, a special meeting was hastily called **on Saturday** at the office of Phoenix' Chief of Police. A plan was devised to arrest retired Officer McLamb. No **state** violations could be found to incarcerate him, so a 35-year-old **city** code book was dragged out and dusted off. In this old book two obscure city ordinances (which research shows had never been used to prosecute and incarcerate anyone before) were applied to McLamb's 1st. Amendment, constitutional activities at the gun show. Officer McLamb was arrested (for the first time in his life) that day and prosecuted to the full extent of the dubious laws. He was facing a possible one year in jail and \$4,000 in fines. For various reasons, too lengthy to go into here, Officer McLamb was found "not guilty" on one charge and guilty on the other. The case is still in appeal.

This is the short version of the continuing saga of the government's attacks on Officer Jack McLamb. Much more persecution and oppression has occurred and continues to occur in Jack's life since his awakening to **his true duty**; but through it all still, that "ole Irish cop" sticks to his oath to defend and protect the people of the nation from **all** enemies.

BACK UNDER CRIMINAL INVESTIGATION

Through certain friends within and outside government, Officer McLamb says he has recently learned that the federal government has him back under criminal investigation. Once again, as twice before, he does not know for what. All he knows is that it is a charge of "conspiracy". Several federal friends have explained that the conspiracy charge is a well worn **political** charge: It is the only charge where the accused can have done nothing and the government will present no evidence, yet the accused can be found "guilty". This is why the charge is used on the government's political

opponents. **IF** the government were to be honest and go by the law and not "politics", a person would be found guilty of conspiracy only if he and another agree to **commit a crime**. (See U.S. vs Sangmeister 685 F 2d 1124.)

Now medically retired from police duties, and managing some old injuries that tend to incapacitate him at times Officer McLamb lives grateful for his modest disability pension while continuing to do his volunteer work with the same goal of informing and calling to duty every fellow peace officer and soldier in defense of a nation in crisis. Now 18 years into the effort, he finds himself wonderfully surrounded, enjoying the help of "millions" of courageous, freedom-loving police and military colleagues and private citizens here in America, and untold numbers of the same in many other nations around the world who are now studying and sharing POLICE AGAINST THE NEW WORLD ORDER and AID & ABET constitutional and freedom materials, and returning to their sworn oaths to serve and protect their people **from ALL enemies**.

In the Fall of 1995, dedicated police, soldiers and private citizen patriots of first New Zealand and then Australia hosted and completely paid Officer McLamb's way, enabling him to tour their great nations, preaching God, Freedom, Hope and Action to all the tried and true freedom-loving people of their nations. For the past several years, Officer McLamb has hosted a daily, international radio talk show, the OFFICER JACK McLAMB PROGRAM. His radio program and his police and soldier publications are both featured on the World Wide Web. Regularly throughout the year Officer McLamb travels the nation speaking out and addressing numerous aspects of the theme: **God and Freedom vs Global Slavery under the UN New World Order**.

His motivation for all this is spelled out in his police/military association's motto:
"TYRANNY CANNOT COME TO THE HOME OF FREE PEOPLE UNLESS IT COMES IN UNIFORM."

His **PRIVATE volunteerism** (as opposed to socialist, government "volunteerism"), is driven, he will tell you, by the reward of looking into the faces of his three sons, their lovely brides and his seven precious grandchildren, and knowing they will have a better chance of living in a free land if all people who love God and Freedom stand together. Officer McLamb is 52 years old and says his life is dedicated to the proposition that, **IF** we will **work** together and demand a return of our nations to God's Laws - **through which ALONE comes the gift of Liberty** - then all God's children on earth **WILL LIVE IN FREEDOM**. (II Chron. 7:14.) Of course, if his work of rescuing the hearts and minds of his colleagues in uniform is to continue to thrive, it will be because his fellow countrymen are joined with him in this fast-moving, worldwide, - **(Continued on page 10)**

A MESSAGE TO ALL GUN OWNERS FROM THE PRIME MINISTER OF AUSTRALIA

To help make Australia safer you need to know how gun control will affect you.

Recent horrific events have caused all Australians to consider what sort of firearms are acceptable in our community. You will have seen a lot of information recently about gun control and not all of it has been accurate.

The following information is the agreed view of all Australian governments made at the special meeting of Police Ministers in May 1996.

GLOBALIST-SPONSORED ELECTROMAGNETIC WARFARE

And How to Protect Against It

By Officer Ralph Garrabrants

Readers of the AID & ABET POLICE/ MILITARY NEWSLETTER already know that there exists an elitists' conspiracy to form a World Government under their control, which masquerades as benevolent government and the "Environmental" "Green Movement", which is to be built upon the ashes of national sovereignty and the "New Foundations" of the United Nations.

What is not yet well known is that there exists a technology, relatively recently deployed in Alaska, which forms the core of the High-frequency Active Auroral Research Project (HAARP). HAARP can be used to alter weather patterns, locate underground structures, disrupt communications, destroy electronic components, detonate ammunition, and affect biological (living) systems, to name just a few. The Soviets have worked on electromagnetic pulsing effects for decades. In fact, the Arizona Republic on May 21st., 1983, page C-8, reported that a Soviet device made in 1960 called the "Lida", was designed, according to the Russian manual, for treatment of psychological problems and described the apparatus as a "distant pulse treatment apparatus". The United States and Europe have long been bombarded with shortwave radio energy in the 6-40 megahertz range, also known as the woodpecker signal.

Dr. Nikola Tesla, the greatest discoverer of scientific principles, realized that the earth and its surrounding atmosphere formed a relationship that was similar to a capacitor, and that virtually unlimited energy, now known as Primary Energy, exists in the ionosphere. That is why NASA has been experimenting with satellites

placed in the electrojet, trailing cords 12.8 miles long.

When Dr. Tesla died in 1943, our government's security agencies allowed his papers to be taken to Yugoslavia, where the communist dictator Tito undoubtedly shared them with the Soviets. Communists Alger Hiss and Harry Dexter White were but two of the many Soviet agents of influence in the rats nest known as the U.S. State Department at that time.

Before we become tempted to think of HAARP as a "catch up" project by our military, we should note that our government, under the influence of International Monopoly-Capitalists, has nurtured Mother Russia since 1917. The Soviet "collapse" is a farce, and they are working with Red China against the West and planning for war, unless America can be intimidated into a surrender option first.

Don Bell reported on November 24th, 1978 that the U.S. shipped the world's largest superconducting magnet to Sheremetyevo, USSR, on an Air Force C-5 Transport, and that U.S. Air Force Captain John M. Zinkievich observed the magnet installed in apparatus when the fliers were given a tour of the U-25 plant by Aleksandr Y. Sheindlin. The magnet was capable of generating a magnetic field **250,000 times greater** than that of the earth itself.

Although the woodpecker signals were being received prior to this treason, the incident shows that the U.S. Government and the Soviet government are working together on this.

The HAARP system had to be located in a place where enormous natural resources were available to operate the magnetohydrodynamic generators which produce, according to the U.S. Patent Number 4,686,605, one BILLION to 100 BILLION watts of energy. Because of the nature of the electrojet, the system can produce 1000 watts of effect for one watt of input power, even on the other side of the world. The process is similar to the base current of a transistor controlling current flow in the solid state device. The power is transmitted from antennae arrays, which are subject to damage or destruction in case of attack from the nearby Soviet Union.

To my mind, this system is much more useful in subjugating the world's people to monopolistic control than protecting people from it. Electromagnetic pulses can be created and directed without the dirty fallout of a nuclear weapon, and the attacker can remain anonymous. Several other countries have experimented with this same technology. If you can cause rivers to flood farm land, or cause draughts at will, that is tremendous geo-political power. Then toss in a government declaring the planned floods a "wetland" for complete land control. Patent 4,686,605 states that the ozone level can be altered. The media help create "ozone hysteria", and the result is a ban on Freon. However, remember that new car

manufacturers, banksters, insurance agents, all benefit, and state governments collect the sales tax and pricey fees for license plates. An insider could go long on oil heating futures when he knows that the "Siberian Express" is coming back to the United States this winter. He could also go long on orange juice futures when he knows the supply will be reduced by **weather warfare**.

Standing waves of energy can create high-pressure areas and deny rain to an area. Few people realize that Tesla believed that energy transmission is transmitted through the earth better than other mediums. Electrical charges affect water and water vapor.

Try a little experiment. Inflate an ordinary rubber party balloon, and rub it against your shirt or a piece of silk or nylon. Turn your kitchen faucet on so that there is a small but steady stream of water coming from it. Bring the balloon near the stream as it exits the faucet and see how much the stream is drawn toward the balloon. The effect is even greater when the same is done with water vapor.

Mind altering Extremely Low Frequency (ELF) waves can be imposed on a population, affecting neuron activity in the brain. It is possible to depress or stimulate the frequency of brain waves by an external power source. The age of electromagnetic weapons is upon us.

The June 1995 issue of Popular Mechanics, page 32, describes a system being tested by the U.S. Army called the Shot Blocker. It can detonate artillery fuses by transmitting energy via modified radar sets. Do you doubt that a similar system could be used to ignite rifle and pistol primers? Good thing there is no one around that would want to do that, right?

WHAT CAN WE DO?

Many people today think there is nothing for good people to do to stop these people and protect themselves against these high-tech globalists weapons. However, this is not true. First, the Lord throughout history has allowed countries that have turned from HIM to be invaded by barbarians, and it is probably only the Remnant of GOD's people that is preventing our destruction now.

Americans for many decades have repeatedly returned thieves, liars, cowards and perverts to our Congress. These modern barbarians have invited their ideological brethren from our own nation and other nations to wage total war on our institutions, country and people. A good start in showing the Lord that we are serious about returning HIM to the proper position in our lives and government, would be to elect congressmen who agree to use Article III, Section 2 of our U.S. Constitution to strip the Supreme Court of its power to rule on any aspect of the abortion issue.

It seems unlikely that the Lord will allow the

minds of the Remnant to be entangled by some outside force once those persons have put on the "armor of light", as described in Romans 13:12. Sound far-fetched? Nevertheless, it's true and it is clear that Satan has dazzled the minds of the elite with visions of power and might, and the ego of the illuminist may know no bounds. The conspirators do not intend to destroy everything, just **control everything and everybody**. However, things may not go as they plan, as they are being deceived by the original expert "illuminated" one, Lucifer. What these elitists don't know is that our Heavenly Father is still in control of what others can or cannot accomplish. (Read 2nd Chron. 7:14.)

In addition to a lot of prayer, the following may be of use:

1. The environmental impact statement done for this project was basically authored by those who created the project or received grant money to develop its equipment, so we must demand that an **unbiased** review of the biological and other effects of this system be done. Also, the Nairobi Convention, to which the U. S. became a party, and which prohibits electronic signals from being transmitted to any sovereign state without its permission should be enforced.

2. Electronic monitoring of weather modification/atmospheric heater installations by independent technicians must become a specialty, sophisticated enough to identify which transmitting site has caused weather-related damage, in order to provide evidence for lawsuits filed to compensate victims. Potential jurors (the people) must become aware of this technology. Remember that patent 4,686605 was issued to Bernard Eastlund, but assigned to APTI, whose parent company is **ARCO**.

3. The probability exists that the Shot Blocker or similar instrument installed in ground or air units could be used to sweep an area and ignite small arms primers. Therefore, keep ammunition in a metallic case, and if possible, ground the case to prevent any buildup of electrical charge on it. Copper plumbing affords a good ground, and the grounding screw on a three-prong electrical outlet will be as good as the ground connection at the electrical service.

4. Try to get a mechanical backup to take the place of transistorized equipment in case of failure. Old cars that have breaker point ignitions are the most resistant to EMP waves. (And we wonder why our government wants all the people's old cars gone and only new cars on the street with electronic, transistorized equipment.) One way to protect the vehicle and other equipment: The concept of the **Farada Cage** is to enclose sensitive circuitry in a metal enclosure, and ground the enclosure. If a car with integrated circuitry has a metal

body, it may help to arrange a piece of metal cable so that it touches the roadway, similar to the method used by gasoline tanker trucks to remove static charges. Keep it away from the drive shaft! The electronic modules in plastic bodied cars should logically be toast, unless some way is found to shield them by individual cages, also grounded.

CRUSH THOSE SEDITIONISTS!

non-violent, freedom revolution.

When asked if he thinks we will see a violent revolution in America, McLamb responds, "If Americans continue to awaken at the rate we are seeing today, both those in government and in the private sector, and if they will become politically **active** within their communities and states, we can still win America back from the despots in our government without bloodshed. The big problem with a **peaceful solution**, however, is that only one side wants it. By deliberate, evil design of the global manipulators, the very best patriots in the private sector are to be violently pitted against the very best patriots in uniform, in hopes that they will kill each other off and that this 'brother killing brother' violence will scare the

American people into begging for martial law. This is the hope and the plan of those who benefit from, and even instigate, horrors like bombings, crime and anarchy. Such is intended to cause great FEAR and an outcry from the majority, for the suspension of the Constitution."

When asked the final question, "WILL WE WIN?", McLamb answers, "Our Lord has promised that those who serve Him win in the end. But for now we must remember only that **'Duty is ours; consequences are God's'**." - End

TAKING DOWN MCLAMB

Our government's Socialist elite are committed to stopping Officer McLamb's work, and they hope to indict and incarcerate him soon.

As all U.S. ENFORCERS can now understand, McLamb and all men and women like him around the world are our targets and **MUST** be stopped **at all costs**. For, if we police and soldiers will not **BLINDLY DO WHATEVER WE ARE TOLD**, the global elite combine which employs us will not be able to complete their plan to rule the world. Nuff said.

VICTIM OFFICER JACK TRUSTS IN TRUSTS

COUNT ON IT! The Socialist Elite in Washington believe that we, the middle class and poor, have no right to own property. This is why so many of the state and federal programs are geared to removing said property. This is also why The American Citizens & Lawmen Association has been making trusts available for years at extremely low donation cost to those who wish to secure their few personal, real and business properties for their heirs. Such trusts normally sell for \$1600 to \$2600 each. Our association asks for a donation of \$450 for the first trust and \$225 donation for each additional trust. The reason our trusts are so inexpensive is that the police officer/soldier staff which prepares and disperses these documents are volunteers. Therefore, the entire donation is used to educate our fellow law officers and soldiers on constitutional issues, investigating corrupt government leaders and activities such as the Matthews/Kahl case. Trusts can stop losses. Ask victim Officer McLamb. As one Phoenix attorney explains, it can be up to 60% of your estate under the Clinton/Dole/Gingrich wealth confiscation plans (taxes). Remember, it is not paranoia, if they truly are out to get you. Patriots, Pro-Lifers and other "politically incorrect" activists should know about this. Write to **ACLA, P.O. The Right of Revolution, or the Process of Changing Government

by Officer A. Rick Dalton

A careful comparison of the actions and forms of government in America today with the Founders' original formula for freedom, peace and prosperity will bring one to the conclusion that unwise and dangerous changes and usurpations have brought upon us serious problems. Nearly every one of these problems can be traced to the contravention of one or more of the fundamental principles of the "divine science" of government laid out by the Founders for our benefit.

With these problems in mind, there may be some who are considering forceful revolt and violence against the government, in order to remove the offending government officials. This is the kind of reflection which in the dark hours immediately before the American revolution, occupied the minds of the Founders. According to these wise and peace-loving men, it is not to be considered lightly, and must be resorted to only as a last, desperate resort. "...popular resistance and revolution [ought to] express the settled desperation of a people in extreme cases, not the pique of those who merely cannot have things their own way."

Redress in Small Groups was to be Without Violence

The Founders knew that any government, even a tyrannical one, was preferable to no government at all, which we call anarchy. And they also knew that the right of revolution belonged not to any small, unhappy group, no matter the righteousness of their cause, but only to the majority of the people who, if united in these numbers, could speak for the whole people. In a wonderful speech, the Reverend Samuel Langdon addressed the New Hampshire Legislature on June 5, 1788, on the eve of their vote to ratify the newly written Constitution. The people had just come through a bloody revolution only a few years before, and no doubt the destruction and heartache was still on their minds. This Godly patriot warned his fellow citizens to: "Never give countenance to turbulent men who wish to distinguish themselves and rise to power by forming combinations and exciting insurrections against government. For this can never be the right way to address real grievances."

There are some who have compared America today with other nations where total rulers' law is in control, where the people have no voice whatsoever in their government, and tyranny reigns with blood and terror. This is a mistaken analogy, for even with the problems we face today, Americans still have many of the freedoms and liberties that were bequeathed to us by the Founders.

Allegiance Owed to the Union

And we owe our best efforts to preserve the Union of states which joined together under the leadership of the Founders' generation. George Washington in his famous Farewell pleads with Americans (including us) to cherish and preserve the unity of the United states and to use the system for redressing grievances.

As a law enforcement officer for the past 20 years, I have witnessed that the most serious problem we face today is the people's ignorance of great principles of liberty. Today, there is a great deal of ignorance in the body of the people. They are not able to be united on these principles, because they do not know them. And I have witnessed that where these ideals have been learned by government officials at any level, they become ardent protectors of freedom,

and the people's friends. After all, the best way to destroy an enemy is to make of him a friend - by educating, rather than killing him.

The Right Is in the Whole People

The Founders knew that revolution by a minority of the people was doomed to failure. We find evidence of this in nearly all of the individual Framers' writings, and in the governmental documents they created. For example, the preamble to the Vermont Constitution, in 1777, recognized the right to alter an abusive government, but says that this right is to be exercised only by "common consent", meaning a majority of the people.

John Locke, a philosopher whose writings heavily influenced the Founders, discussed this point in his 2nd Treatise on civil Government: "Who shall be the judge whether the Prince or Legislature act contrary to their trust? This, perhaps, ill affected and factious men may spread amongst the people, when the Prince only makes use of his due Prerogative. To this I reply, The People shall be Judge."

Again, Algernon Sidney in 1698, before the Revolutionary War, cautioned against violence toward government without the general and massive support and agreement of the whole people: "The mischiefs concocted by a 'busie head, or turbulent spirit' would not succeed in the absence of a general sense of being wronged."

Even direct statements of the founders about the right to revolution and to disregard tyrannical laws are couched in the language of general terms. Alexander Hamilton, in Federalist Papers no. 5 said: "When the first principles of civil society are violated, and the rights of a whole people are invaded, the common forms of municipal law are not to be regarded."

Americans Should Be Anxiously Engaged in a Good Cause

It would be wise for all Americans to work towards gaining a reputation of being for freedom and liberty under the Founders' plan for an educated citizenry, rather than being known as anti-government protesters. We must recognize that, while tolerance of the people cannot be unlimited, so the support of the whole people is required for success in changing government by force.

Education Still the Best Method of Revolution

We must not forget the power of ideas - those inspired ideas such as Natural Law, Separation of Powers, and the many others which were in the arsenal of the Founding generation, and which won so many converts. AID & ABET is in the forefront of this battle, and we appreciate your support in the effort. This is the best way - - the Founders' way.

Founders Relied on God for Guidance

Let us remember always the heartening declaration of Benjamin Franklin in the midst of the Constitutional convention in Philadelphia, when he said: "...the longer I live, the more convincing proof I see of this truth, that God governs in the affairs of men..."

Franklin relied daily on God in all his endeavors, and he even penned the following little prayer for daily use:

"O powerful goodness! bountiful Father! merciful Guide! Increase in me that wisdom which discovers my truest interest. Strengthen my resolutions to perform what that wisdom dictates. Accept, my King, offices to Thy other children as the only return in my power for Thy continual favors to me."

We can depend on the same source of wisdom and restraint that guided the Founders. And we should be thankful that we are still able to educate our fellow Americans. BLACK SOLDIER SPEAKS OUT ABOUT GLOBAL ENSLAVEMENT!

Dear Confederates,

This is my first communication with your organization. The political climate in the military being what it is, I trust you will keep my identity confidential.

My thoughts and beliefs, are somewhat confused these days. But, I want to express some feelings I've kept inside for some time. I'm a ___ Sergeant in the U.S. _____ with ___ years in service. I've been out of country for 11 months this tour. Not certain when I'll return home. Our _____ Lieutenant, risking his bars, gave several of us copies of your military and police publication several months ago. I've read one other over the last few years. This issue was very cogent as it covered comparisons of the American Constitution with the United Nations charter. The realization that soldiers can't serve under the United Nations without violating our national oath that your publication imparts did enhance my blood pressure. It also reinforced in me once again that even though many soldiers feel something is wrong with some of our missions and some of the things we are being commanded to do, so few actually know what is going on in the military and the world today.

In my career, I've seen first hand, up close, how American soldiers and the soldiers of other nations have been used to take guns and freedom away from poor, black, Asian and Hispanic people who need their guns to try to retain their freedoms by fighting against communist renegade leaders in their own nations and governments. The people of Somalia was a prime example. Going in, we were not aware that they were fighting to resist violent Marxist forces and endeavoring to live free. "PEACE ENFORCEMENT", they called it. As I viewed it, we disarmed the wrong side: the good people in the towns. Forthwith, the people no longer have a way to resist the barbaric, UN/U.S.-backed communist War Lords. Some of us lost good friends in that "peace enforcement" effort against the poor, Somali people. Many of them, for good cause, now detest us.

In Haiti we accomplished the same, installing a Marxist dictator (thankfully, I had no part in that U.S./U.N.-backed communist takeover). South Africa, thanks to strong American and European pressures, now suffers under a communist junto. Several million black Christian brothers and sisters are being dispatched, as I compose this letter, by the communist terror our nation advanced there. Inquiring of our superiors "why", we get no logical answer. World Peace under U.N. communism is a fraud. Our military leaders go about bewildered but undaunted. One wonders if they understand these geo-political machinations.

As did most, I entered the military to serve and protect the freedoms and property of the people of my own nation against totalitarianism, communism, or fascism (which are all the same). Can anyone logically articulate how we are

assisting our country, or these other poor nations' people, by forcing them under world communism? This kind of thinking has drawn me some heat, regardless. I suppose that since I performed well at removing the freedoms of one nation's people I'm now in a "special unit" in another nation using my talents to enslave another people. Several of us, including the Lieutenant, understand that we are once again being used here to undermine the present government of this non-communist dictatorship and prepare it to become another asset of the United Nations. Understanding this, as you can imagine, puts us in a shameful and stressful situation. It's difficult to change one's job description from one of **guarantor of freedom** to one of **facilitator of world slavery**. I don't mean to denigrate other fellow military members, but from an historical position, this enslavement of poor people is particularly difficult for Afro-American soldiers.

Most of us in the U.S. military do not understand what we are a part of. Solders, and "the folks back home" are told that we're helping the poor and oppressed people in other countries. I could live with that, but it's not true. It's like we are mercenaries for the highest bidder, **not** American soldiers. We, of course, can't speak out-loud about these feelings, for reasons you're already aware of.

I've heard of your educational activities and publications for several years. Your publications are passed around "quietly" because there are some political problems associated with being caught with patriot or constitutional materials. We have been instructed that any U.S. individuals or groups that espouse or publish about "patriotic activism", "constitutional violations" or government conspiracies are subversives and it will do our careers severe damage to express interest or get involved. That speaks volumes, since some in the military (including up the Chain) are members of anti-American, leftist movements or groups. This has no deleterious effect on their careers. More factually stated, having a leftist world view is somewhat beneficial at promotion time. We see this and more and discuss it quietly. As I see it, more of us are beginning to see the truth and that's good, but it does seem the day may come when we will all have to decide whom and what we will serve. There is no longer the pride we once experienced in the days when we served only our nation and its people. Will we see a return to those days?

We ask you to gird yourselves for rough times and continue sending out the newsletters as long as you can. The knowledge passed on through its pages to those of us in the active service of the U.N. (not the U.S.) is important and timely. In that regard, pass this on to the citizens stateside who are told that "**We are now serving under NATO.**" NATO is a red herring; it's still the U.N. in power. They changed the command to NATO to protect the U.N. program

from the growing storm of contention and controversy over their Marxist goals and leadership. Nato is under U.N. control, according to past records of agreements. (Investigate and be clear.) The test is to look and see what colors fly. Look closely and observe the U.N. blue and white.

Those of us who have seen it first hand, and now understand, are saddened that many of our Afro-American brothers and sisters, along with the Hispanics, are misled to believe that a one-world system is going to be our people's answer to total equality and freedom. "Quality" time in the military has allowed some of us to **see the truth**. I've beheld communism's **true FACE**, its history written in the drawn, despondent faces of millions. "All races and many creeds...just as dead under that exploitive system!"

There is one **positive** thing about communist **internal** subversive takeovers. They always kill the captured nation's traitors, since they understand that, if they would sell-out **their own people**, they certainly cannot be trusted. This serves to help purify the gene-pool!

The communist leaders are hiding the fact that they are very wealthy from money and property they take from the poor, not the rich, yet they speak of "liberation of the poor". They "liberate" the poor of what little they have, under the banner of "equality" and secretly live opulent lifestyles themselves, secretly always retaining power and untold riches. I see now that this is the same falsehood they have instilled in my people in the U.S..

Some of us can now see plainly that, under the United Nations world government plan, the only difference is, **this time** Afro-Americans will not be enslaved alone. The rich Marxists in America and around the world are no respecters of persons. Afro-Americans will be enslaved right along with all other **non-wealthy** Anglos, Hispanics, Asians, and other indigenous peoples of the world, all made to serve the masters of a "world **plantation**". There is no satisfaction for my people in this arrangement. Therefore, we must all do our part, **our duty**, and see that this world imperialism does not succeed.

Sincerest gratitude to all our fellow soldiers and police assisting in your efforts to stop this insidious one-world program, and in addition, for sending out the special military newsletters. Tell all there that the most gratifying message you send us is that of assuring us **we're not alone in this war**.

Well-worn copies of your publications are passed on to members of my unit and then on to others. Be advised some of us here will continue to educate as many as we can in regards to **real** duty and true freedom, until we prevail.

For all those reading this letter, believe us when we tell you that we

do our very best to keep your identities secure. But we do ask for permission to air your thoughts with our fellow Americans in uniform. These times of sharing thoughts and experiences help many "in the trenches" who may be too afraid (or **too wise**) to communicate. All original communiques are destroyed forthwith.]

SHERIFF SPEAKS OF "DUTY TO THE PEOPLE"

by Sheriff Michael E. Cook
Coos County, Oregon

Have you seen the new Brady Bill II (**HR 3932** and **S 1878**)? Well, if you haven't, stand by; here it comes. This one is real bad and needs every effort to get it put away. President Clinton and Sarah Brady are at it again and this time they are going all out to make it impossible for you to protect yourself. Most of the gun stores have copies of this bill, as reported by the National Rifle Association.

In short, it requires things like a \$300 three-year license from the BATF if you own 20 firearms or have 1,000 rounds of ammo in your home. Along with this, BATF can search your home unannounced three times during each year. This bill also outlaws most production handguns and many other weapons and allows you to buy only one handgun per month. It removes the sunset on the 7-day waiting period and makes it happen even with insta-check.

What they are after is to take all your gun rights away and make it so hard to get them, and drive people out of business who sell firearms or manufacture them. They think they can convince you that this is the answer to crime. Then once you are dependent on the government and police for all your protection, who will protect you from them?

One of my young Deputies came up to me after seeing this report and asked me what they were trying to do to him and all police officers. He then went on to point out how **now** the bad guy may have a cheap handgun that may or may not work when he attacks a police officer. This bill will only make **quality** weapons available for the bad guy and get more police officers

killed.

The bottom line is, they want to take all firearms away from the law-abiding citizen and this will only make you defenseless. Then the bad guys and the government will rule the day and our way of life so that we have no freedom left. America will come to an end as we know it.

Again I say: Don't just sit back and hope someone does something. Let your elected representatives know how you feel and then vote for those who will protect your rights. Join and support the NRA before it is too late.

A study done by John Lott and David Mustard, "Crime, Deterrence, and Right-to-Carry Concealed Handguns", in the Journal of Legal Studies, January 1997 issue, shows that if all States in America had adopted the right to carry laws, approximately 1,570 murders, 4,177 rapes, and over 60,000 aggravated assaults would have been avoided yearly. Can you imagine what the crime rate would look like under the new Brady Bill? We in law enforcement need your help to make sure we remain a free and safe people. This is as vital as anything I have ever asked for. Please take the time to tell others and get people involved. We will not have the same freedoms for our children and grandchildren, if we don't.

A couple of years ago I had the opportunity to talk with a Major in the Russian Police Force from Moscow. He was here doing a study on American Law Enforcement. First he asked me how many homicides we dealt with each day. His impression from our media was that we had one about every hour. I told him we normally have one to six a year in Coos County and he was shocked. Our media does a fine job telling us we are a violent country.

This Major told me that his job was to head up the division of their national police that deals with gun smuggling and narcotics. He then indicated that in Russia the only people allowed to have firearms are police and military. They have a big problem with gun smuggling and all the criminals have firearms. He said they are not afraid to attack citizens because they know they are not armed. By the same token, they often shoot it out with the police. He told me that in the past year they had almost 400 officers killed in Russia. In America we had only 62 officers killed the same year.

This tells me something. First, America is not a violent country, and second, outlawing firearms from our citizens will only make one more big problem for us. It points out that an armed society is indeed a polite society. At the very least, a safer society. So stop and think about what I have said. This could be America.

OUR DUTY: WORK AND FIGHT LIKE WE'RE GOING TO WIN BUT PREPARE LIKE WE'RE GOING TO LOSE (temporarily!)

For those who believe GOD's Word, it is assured that we win in the end. No question. However, THE WORD also states that only a remnant will live through the tumultuous times ahead. Whom will that be? Once again, the answer is found in 2nd Chronicles 7:14. No question. There it shows us that it is those who are called by HIS NAME (people who serve HIM) who have turned from their wicked, sinful ways, have asked forgiveness, and have taken a "LAND" back under GOD's law. Our Almighty GOD so states that all this evil we see abounding in our nations is HIS children's (our) fault! Notice, this is the very reason that America had become the greatest nation ever on the face of GOD's earth. We **were** a people under GOD's LAW. That is the only reason we became the most free nation ever on the face of the earth. The words from GOD's LAW BOOK, the BIBLE, teach that **HE IS LIBERTY!** And without HIM there is NO freedom. Non-Believers will not understand what we are discussing here. However, if we believe GOD in one part of HIS word, we must believe HIM in all other areas of HIS word. And without any reservations our LORD said that to survive oppression and danger and live free, the people of **a land** must - COME UNDER HIS LAW.

Read 2nd Chron. 7:14 and we know **where it is** that our HEAVENLY FATHER said it would be safe and free. Anyone who has read this publication in the last 3 years will know that Col. Bo Gritz and Officer Jack McLamb are preparing such a place in the mountains of Idaho. After 2 years of very intense investigation to find the safest, and most survivable place in the United States it was found in a place called Idaho County, Idaho. Mild weather, great air, water, soil, mountains, forests, rivers, fish, and great neighbors. We have over 200 families that have succumbed to the wonders of this heavenly mountain range. The only qualifications to be a part of our DOVES OF THE VALLEY Constitutional Communities is to read and agree with 2nd Chron. 7:14. (Brother BO GRITZ's very fine Constitutional Communities in Idaho County are called ALMOST HEAVEN.) With GOD's continued blessings, we will have enough people in the county to **vote in** only those who will bring this wonderful county under the blessings and protection of our LORD and under the Constitution.
